**70** YEARS OF  
DISCOVERY

A CENTURY OF SERVICE

# Take Away Points

- Consider why you want to collaborate and publish
- Consider what your current and next employer expects
- **Collaborations** -
  - Network, Promote your Research - to get onto good collaborations,
  - Go the extra Mile for the project, Volunteer for opportunities to make the most of your time in a collaboration,
  - Keep in touch
- **Publication** - Quality over quantity, make sure people can find your publication

# Lunch Questions

- How do you promote yourself?
- How do you network?
- How much have you collaborated, what roles have you held?
- Do you know the top journals and conferences in your field, how to get into them, why are they the top spots?
